

ATG[®]

Global Sourcing Specialists

COMPOSITES & PLASTICS

ATG are global sourcing specialists that partner and work with manufacturers of commodities in China, India and South East Asia. We supply a range of components, assemblies and sub-assemblies to OEMs in a variety of industries including mining and construction, waste recycling, agriculture, transportation, earth moving, marine and material processing.

When an order is placed with ATG every part of the process is taken care of. This includes all manufacturing, international shipping including import and export duties, and then final delivery to anywhere in the world.

We manage all risk to give you the competitive edge.

Delivering Quality Worldwide

COMPOSITES & PLASTICS

ATG supplies composite & plastic components for numerous applications for machinery manufactured by original equipment manufacturers.

Our facilities utilise a variety of production processes including extrusion and injection blow moulding, vacuum forming and rotational moulding. All factories are audited to meet our stringent quality requirements by our global engineering teams.

ATG has a proven methodology that enables us to achieve efficiencies, and keep to schedules due to our thorough understanding of local customs and values, time zones, language barriers and having our team of production managers on site to handle any issues that may arise. Our customers truly benefit by sourcing their parts, components and sub-assemblies offshore whilst maintaining a high level of quality.

Whatever your needs, ATG has the capacity and flexibility to fulfil any order regardless of its size or complexity.

The parts ATG supply include:

- High-density polyethylene (HDPE)
- UHMWPE Components
- Polyurethane Components
- Plastic
- Nylon
- Rubber
